TimberLike | Real wood look Composite door

TimberLike replicates the classic appearance of traditional timber doors with the durability, consistency and low maintenance benefits of modern composite construction. Featuring a robust 48mm multi-layered timber core, engineered mouldings and premium foiled finishes, the range offers outstanding strength, stability and aesthetic appeal. Designed with installers in mind, TimberLike simplifies fitting, reduces on-site adjustments and provides a reliable, high-quality solution for every project.

Secured by Design
